

FPS GEOGRAPHY

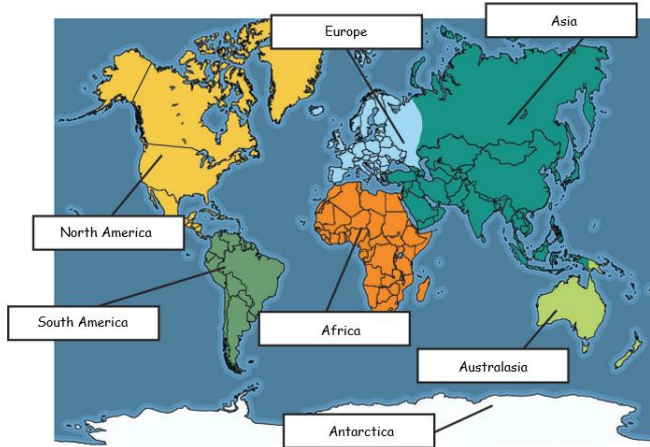

Knowledge Organiser

Year 1/2 Let's Discover

Geography Detectives:
What are the seven continents and five oceans on Earth?

The Seven Continents

The United Kingdom (UK) is in Europe.

Why are oceans so important?

Oceans are important as a home for plants and animals. It is thought that oceans are home to 1/2 to 3/4 of all living things.

Oceans support food and jobs for humans because of fishing for eating and selling.

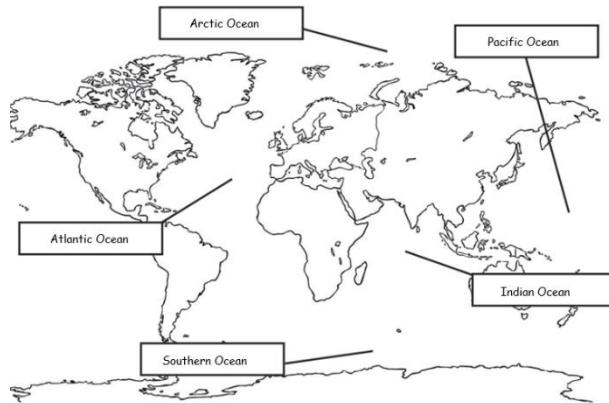

Oceans and beaches are important for tourism. Tourists spend money which supports local communities.

Key Vocabulary

Ocean	An ocean is a very big area of salt water between the continents.
Land	Land is any part of Earth's surface that is not covered by water
Atmosphere	The atmosphere is the layer of gases that surrounds Earth. It includes the oxygen we need to breathe, so it is essential for life on Earth.
Planet	A planet is a large round object that travels around a star in space.
Satellite	A satellite is an object in space that orbits or circles around a bigger object in space. These can be natural like the moon or artificial ones like the International Space Station.
2D	A two-dimensional (2D) object is flat - its dimensions are height (top to bottom) and width (side to side).
3D	A three-dimensional (3D) object is solid - its dimensions are height (top to bottom), width (side to side) and depth (front to back).
Continent	A continent is a large land mass on Earth and there are seven: Africa, Antarctica, Asia, Europe, North America, South America, Australasia
Tourist	A tourist is someone who travels to a different place from where they live for a holiday
Four compass points N, E, S, W	North, East, South, and West are directions at 90 degree intervals (rt angles) in a clockwise direction on a compass

Compass Points

Human geography - features of our world that have been made by humans e.g. landmarks
Physical geography - features of our world that are natural e.g. rivers, seas, weather

Christopher Columbus was an Italian navigator who completed four voyages across the Atlantic Ocean. While searching for a route to the Far East, he discovered a sailing route to America.
